## Summary

I have been working in IT professional Industry for more than 5 years with a minimum of 4 years working experience as a Java Developer and 2 years working in management area.

I started my career as Java Web Developer intern. After 2 years working in JAVA language, I got assignment as RPG 3 and RPG-ILE Developer which based on AS/400 for around 1 year. After that I went back to JAVA language until December 2017. From January 2018 until February 2018 I got triple assignment as Business Analyst, System Architecture and also Co-PM.

Since March 2018, I got assignment as Member of Foundation Dept on PJI. On Foundation Dept, I have to decide the technology for every project, creating template and decide how many mandays that will consume for the project.

Since September 2018, after resigned from PJI, i worked as deputy manager who has assignment as *local* software development manager whereare I have to manage timeline of every project and also decide and conduct training technology that will use for each project on Software Development Department at FIRSTWAP INTERNATIONAL since the company has subsidiary on overseas, the manager itself is taking care other people on Software Development Department on overseas instead on Indonesia.

From January 2019 until March 2019, I work on Lentera Edukasi Digital as Software Architecture as well for every IT project they get. On Section Project Experiences, I already declare every project, role and responsibility I worked.
